

# HIV in the United States: At a Glance

**Total estimated new HIV infections in 2014: 37,600\***

About 70% of annual HIV infections are among **gay and bisexual men**.

## New HIV Diagnoses in the United States Among the Most-Affected Groups, 2016

**39,782**  
DIAGNOSES IN 2016

**26,570**  
GAY AND BISEXUAL MEN

**9,578**  
HETEROSEXUALS

**3,425**  
PEOPLE WHO INJECT DRUGS (PWID)

## From 2011 to 2015, HIV diagnoses:

\* HIV infections are the estimated number of new infections that occurred in 2014. HIV diagnoses are the number of people whose HIV was diagnosed in 2016, regardless of when they got HIV.

**African Americans** make up **12%** of the US population, but **44%** of new HIV diagnoses.

**Hispanics/Latinos** make up **18%** of the population, but **25%** of new HIV diagnoses.

**1,122,900**  
**PEOPLE ARE**  
LIVING WITH HIV.

**1 in 7**  
DON'T KNOW IT.

## HIV Diagnoses by Age, 2016

More than 6,000 people died from HIV in 2014

FOR EVERY 100 PEOPLE  
LIVING WITH HIV IN 2014:

**62**

received  
some  
HIV care

**48**

were  
retained  
in care

**49**

were virally  
suppressed\*\*

\*\* People living with HIV who take HIV medicine as prescribed and get and stay virally suppressed have effectively no risk of sexually transmitting HIV to HIV-negative partners. About one-third of people in HIV care don't get and stay virally suppressed throughout the year.

## Reduce Your Risk

Not having sex

Using  
condoms

Not sharing  
needles

Taking medicine  
to prevent  
or treat HIV

## HIV IS A VIRUS THAT ATTACKS THE BODY'S IMMUNE SYSTEM.

It is usually spread by anal or vaginal sex or sharing needles with a person who is living with HIV. The only way to know you have HIV is to be tested. Everyone aged 13-64 should be tested at least once, and people at high risk should be tested at least once a year. Ask your doctor, or visit [gettested.cdc.gov](http://gettested.cdc.gov) to find a testing site. Without treatment, HIV can make a person very sick or may even cause death. If you are living with HIV, start treatment as soon as possible to stay healthy and help protect your partners.
